## Proposed Changes to be made – Summary

The major drivers for changing the statutes have been

- Implementation of the Act on Management and Supervision of Legal Entities (MSLE) Act in the Netherlands, which has meant that all legal entities need to review their legal arrangements, specifically those related to governance and management. Consequences of this have included the introduction of a Code of Conduct for IAOS EXCO members, and the clarification of the formal relationship between the ISI and its associations, including the IAOS.
- Changes in working procedures, including establishment of sub-groups such as the Krakow Group, and evolutions in the composition of the EXCO membership

<b>Key Proposed changes</b>
Introduction of a new statute covering the establishment, reporting and dissolution of IAOS sub-groups – Statute 9
Introduction of a new statute setting out the relationship between the ISI and the IAOS - Statute 5
Changes to statutes related to membership of the IAOS, to simplify and standardise the different types of IAOS members (individual and organisational/ institutional) - Statute 3
Changes to the terms used for organisational/institutional members and their definitions – Statute 3
Changes to the statutes related to the Executive Committee (EXCO) in light of the MSLE and the implementation of the Code of Conduct, along with evolution in the composition of the EXCO. - Statute 7
Changes to the statutes related to the General Assembly, giving the General Assembly held during non-WSC years, the power to change statutes – Statute 6
Introduction of standard definitions of key terms used in the statutes
